## Scotland In focus

### Kelvingrove Museum and Art Gallery

Kelvingrove Museum and Art Gallery is the largest civic museum and art gallery in the UK and contains collections of international importance. Housed in a landmark Glasgow building, the recently refurbished

Kelvingrove was one of the highlights of the Museums Association Conference and Exhibition 2007.

## Museum of Scottish Lighthouses

The Museum of Scottish Lighthouses consists of Kinnaird Head lighthouse, the first lighthouse built on mainland Scotland, and a purpose-built museum. The museum houses a fabulous collection of glass lenses, lighting technology and social history artefacts covering the lives of the men and families who guarded Scotland's coastline for over 200 years.

## Museum of the Royal College of Surgeons of Edinburgh

Scotland's largest medical museum houses one of the most significant surgical collections in the world. William Playfair's outstanding Pathology Museum, the oldest in Britain, contains human anatomical and pathological specimens from the late 18th century.

Other objects, images and artworks trace surgery's fascinating history from Roman times to the present including the breakthrough discoveries of antiseptics and anaesthesia, and the curious development of false teeth.

## Judge's Lodging

This award-winning venue gives visitors a taste of what was once called 'the most commodious and elegant apartments for a judge in all England and Wales'.

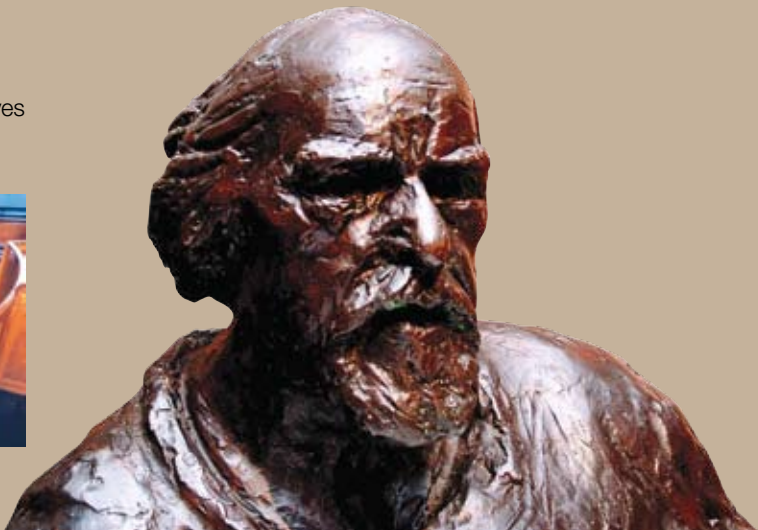

From the stunningly restored judge's apartments to the dingy servants' quarters and damp jail cells below, visitors to the building are accompanied by an eavesdropping audiotour of voices from the past. The house's hands-on policy also allows visitors to sit in the judge's chair, study his books, and immerse themselves in another time and place.

## Tenby Museum and Art Gallery

Nottingham Castle is a magnificent 17th-century ducal mansion built on the site of the original medieval castle, with panoramic views across the city. The vibrant museum and art gallery house collections of silver, glass, armour and paintings, and 15 centuries of Nottingham history. The galleries also bring the best regional, national and international artists' work to the city. The famous cave tours take place underneath the castle in the man-made caves and tunnels which date back to medieval times.

## Buxton Museum and Art Gallery

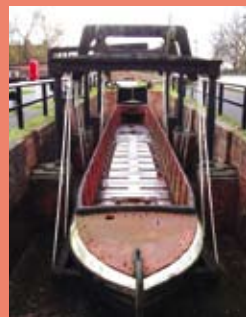

Collections of this characterful Derbyshire museum include: Randolph Douglas' House of Wonders collection which includes a huge number of locks and keys, and unusual Houdini material; the archives and libraries of Professor William Boyd Dawkins and Dr JW Jackson, geologists associated with the county and with Manchester Museum; the carboniferous limestone fossil

record of the Peak District; Pliocene mammal evidence from caves throughout the Peak District; a board photographic archive of images of Buxton; local social history and ephemera; and a fine art collection dominated by 19th- and 20th-century works in watercolours, oils and prints, including works by Brangwyn, Chagall, Chahine and their contemporaries.

## National Waterways Museum

Located in a restored corn mill alongside the Grand Union Canal in the beautiful village of Stoke Bruerne, the National Waterways Museum is an ideal place to explore the story of England's waterways. The museum features one of only three weighing machines ever constructed, used to calculate how much cargo each boat held by taking the weight of each boat away from the weight loaded. There is also an audio trail along the towpath to the historic Blisworth Tunnel.

## Castle Museum

Once capital of Roman Britain, Colchester has experienced devastation by Boudica, invasion by the Normans and siege during the English Civil War. Housed in the impressive castle building itself, Castle Museum takes you through 2,000 years of some of the most important events in British history. Hands-on displays showing Colchester's history from the Stone Age to the Civil War.

## Museum of East Anglian Life

Visitors can discover the history and natural world of East Anglia set in a beautiful 75-acre site including woodland and riverside nature trails. East Anglian crafts and traditional culture are explored in restored historic buildings and steam engines are a particular feature. Local animals are on show including Suffolk Punch Horses and rare cattle and sheep breeds.

## Time and Tide: Museum of Great Yarmouth Life

This innovative museum was deservedly a finalist for the European Museum of the Year Award 2006. It explores Great Yarmouth's fascinating history with its rich maritime and fishing heritage, following its transformation from a sandbank to the present day, through times of boom and bust, war and peace.

Housed in a converted Victorian herring curing works, the museum includes a recreation of a Victorian row, a fisherman's home and a 1950s quayside. A collection of historic fishing boats, lively interactives, free audio guides, film shows and younger people's activities all help bring Great Yarmouth's story vividly to life.

## HMS Warrior 1860

The pride of Queen Victoria, HMS Warrior revolutionised warship construction and was the world's first iron-hulled, armoured warship. Powered by steam and sail, she was the largest and fastest ship of her day. Her most radical innovation was her citadel – an armoured box housing her guns. Her four vast decks have been accurately restored, each vividly portraying life in the Victorian navy.

Tate is a family of four galleries; Tate Britain, Tate Liverpool, Tate Modern and Tate St. Ives. It houses the national collections of British art and of international modern and contemporary art. MA membership gives you free access to special exhibitions at all the galleries.

## Effective collections

Tate led a pilot project for the MA's Effective Collections programme for the long-term loan of paintings and sculptures that have not been requested for 20 years. See [www.museumsassociation.org/collections](http://www.museumsassociation.org/collections) for more information.

## HMS Belfast

The largest surviving example of Britain's 20th-century naval power. Best known for her role in supporting the advancing allied troops as they made their way on to Gold and Juno beaches on the morning of

D-Day, 6 June 1944, HMS Belfast is now a naval time capsule, providing nine decks of living history.

**South West and Channel Islands****In focus****Royal Cornwall Museum**

Cornwall's oldest and most prestigious museum, in Truro, well known for its diverse collection. Highlights include a myriad of minerals (with the largest specimen of iroconite ever found) the famous unwrapped mummy, and the collection of Newlyn School paintings. The museum's decorative arts collection and old master drawings are also

very strong. It presents an exciting range of changing exhibitions throughout the year together with an extensive educational programme for all ages.

and Channel Islands

## Guernsey Museum and Art Gallery

Set in the beautiful Candie Gardens with views over St Peter Port harbour out to the islands of Herm and Sark, the museum traces the fascinating history of Guernsey, interpreting the natural and human history of the island from ancient times through to the occupation by Germany during the Second World War. The building also houses several temporary exhibition spaces.

## Roman Baths Museum

At the heart of a World Heritage Site the Roman Baths Museum is one of the country's most popular attractions. Around Britain's only hot spring, the Romans built a magnificent temple and bathing complex that still flows with natural hot water. Visitors can see the

water's source and walk where Romans walked on the ancient stone pavements. The extensive ruins and treasures from the spring are beautifully preserved and presented using the best of modern interpretation.
